

KENEOS

Experienced MM-PP Consultant

About Keneos

Representing the combined strength of over 140 consultants, **Keneos** is a leading provider of effective SAP consulting and solutions. We fuse technical expertise with genuine insight into the demands of various sectors to implement business and technology based solutions.

Four core business units focus on delivering solutions for today's business realities: **Human Capital Management**, **Sustainable Development**, **Customer Life Cycle Management** and **Corporate Finance Management**. All are supported by two business units: **Keneos New Technology** and **Keneos Performance & Risk Management**.

We have offices in four countries, Belgium, Luxembourg, France and Switzerland and a strong community of affiliates. This expands our internationalization.

In order to satisfy the growing demand of our customers, we are currently looking to extend our team!

Job description

We are looking for a MM-PP consultant with at least 4 years SAP implementation experience

- ✦ Be involved in innovative implementations
- ✦ Be responsible and/or taking an active role in a successful SAP implementation
- ✦ Perform industry and process-oriented consulting with key customers
- ✦ Provide functional expertise, guidance, presentations and instructions on SAP functionalities to clients
- ✦ Perform feasibility studies and project reviews in these areas

Profile description

- ✦ You have been working on several projects (at least one project from blueprint to go live)
- ✦ You have worked for several clients
- ✦ You have a good overview and understanding of the business processes
- ✦ You put hands-on implementation of SAP MM and PP solutions (configuration, testing, go live, support, ...)

- ✦ You are able to perform technical and functional analyses in order to improve the implementation of SAP MM and PP solutions
- ✦ You are able to write detailed specifications based on business requirements
- ✦ You manage the detailed customization in the relevant SAP modules
- ✦ You provide reliable estimates and planning
- ✦ You coordinate the deliveries with developers, testers, key users and technical consultants
- ✦ You work in English, French and Dutch

Skills

- ✦ Able to work independently, demonstrate initiative and mobility
- ✦ Positive team player with good communication skills
- ✦ Commercial insight and attitude and very strong customer focus
- ✦ Strong analytical mind and a flexible, pro-active result driven attitude, and committed attitude
- ✦ Dynamic and Proactive Personality
- ✦ Continuous learning attitude
- ✦ Well organized

We offer

- ✦ A challenging and interesting job in a well established SAP Consultancy company who respects the well-being of its employees
- ✦ 2 weeks, at least, of training per year
- ✦ An attractive salary package (+ monthly bonus)
- ✦ Extra-benefits (company car, insurances, cell phone, laptop, ...)
- ✦ A good work atmosphere within an enthusiastic, dynamic and professional team
- ✦ Team incentives

We are looking forward to get to know you!
